WELCOME SIGNS OF IMPROVEMENT IN THE BUREAUCRACY...

In a quiet news release last week USDA Secretary Bob Bergland announced appointment of Sydney J. Butler as acting administrator of the department's Food Safety and Quality Service. **Howard Paine Heads
Hereford Club**

Fort Worth — Annual meeting and election of officers of the Fort Worth Hereford Club was held June 23 at Paul Printing Co. office here. Howard Paine, Nocona, was elected president; Jack Turner, Fort Worth, was named vice president and Leonard Paul was reelected secretary-treasurer. Directors to serve through the 1979-1980 year were Charles Nebel, Dr. W. D. Timmons, Paul Murphy and Mrs. Jack Buckley. The club will again sponsor the cocktail party preceding the annual Texas Hereford Association banquet at Green Oaks Inn. It was decided that since Texas Hereford Association plans bull sale following the Commercial Hereford Heifer Sale at the Southwestern Exposition & Fair Stock Show, the club would not sponsor a bull sale during the show.

Our Girl Friday . . .

By ANN SYLER

We returned from a short trip to Mexico to the cows of the flooding over the Hill Country and other parts of the state — landing in San Antonio and on to get home to see how much rain we had and what damage, if any — to find we only had 8 tenths of an inch throughout the whole affair! Now if you think that won't bring you down a peg or two . . . We did need it so badly, but, then, I'm sure those folks would have gladly given us 10 or 12 inches or more if they could have.

We were also in Mexico during the rainy season — and woke up one morning after a hard rain the night before and found water standing all over our bedroom floor! Our son, Job, was

Unhappily up his master's degree in Latin American Studies and International Finance in Guadalajara. He was living in a beautiful house to a little town about 45 minutes from Guadalajara. He was named — keep in mind that a "J" is pronounced as an "H" in Spanish — then make like you are laughing and you'll be able to pronounce it — Ah — hee — hoo! and we took both grandchildren (age 5 and 8) with us and wouldn't have taken the world, very colonial village of Tepic. You climb to an elevation of about 5,000 ft. in 18 miles and to that place I think I will move someday! My dream retirement village. It is super beautiful, super old, and super clean — and slow paced, and quiet, and the food was good, good.

In one other small little town we found a wonderful weaving shop — I purchased such a beautiful basket woven rug — and we visited Zoocalco, the only place in the world where they make the leather chairs and tables that we see quite a few of in shops here in the States. It is probably the dirtiest town I have ever seen! But we did get a bargain on the tables and chairs. Sure makes it easier traveling when you have a son like ours who speaks the language and who had spent all his spare time always, searching out these places. He is one of those, like us, who went to Acapulco one time and left after just a few hours — that's just not for us.

this family have ever gotten much out of the normal "tourist" things — so instead of going to the big city we kind of did our own thing — we spent one morning climbing a mountain at Ajijic, where the local farmers have little plots of corn and beans planted and where the view of the lake below Lake Chapala — largest natural lake in Mexico is fantastic. They plant the corn and bean both in the same hole so that when the corn stalks grow the bean wraps itself around the stalk, and that way they don't have to put a pole for the bean. But, my, at the abundance of other foodstuffs they could grow up there if they would. It kind of gets to us "Gringos" to see what could be done with the land. One burro way up in the mountain started braying as we were climbing, and then we could hear about 4 others all over the hills mawering him! Another day we drove to the very old, very colonial village of Tepic. You climb to an elevation of about 5,000 ft. in 18 miles and to that place I think I will move someday! My dream retirement village. It is super beautiful, super old, and super clean — and slow paced, and quiet, and the food was good, good.

BRANGUS For Feeder Calf Profits.

Black Baldies, (Brangus/Hereford crosses), are in strong demand by feeders and bring top market prices for you!

Black Baldies are an ideal feeder animal. Ask any commercial cowman about the great calves with "a little ear". Medium-sized at birth, they make calving easy for any type of cow. They gain quickly on feed or forage, and average 75 to 100 pounds heavier at weaning than English breeds.

Brangus feeders mean fewer problems for the operator because they are adaptable to climatic extremes and are pest and disease resistant. But most important, Brangus feeders are consistently PROFITABLE. They lay down internal fat early and finish early with enough marbling to grade choice. Brangus calves are preferred — by stockers, feeders, packers, and consumers. If you want PROFIT, you need BRANGUS!

For information about scheduled events, upcoming sales, and sale catalogs, call collect: Lauren Mayhew, Secretary, Texas Brangus Breeders Association, P.O. Box 570, Sealy, Texas 77474. Tel. (713) 885-3364.

Holler Show held in the morning before the sale was the inaugural event for the all-new \$1.5 million Regional Livestock Center in Sulphur Springs. Inflation of the center was enhanced by sale of the reserve champion heifer from that show, exhibited by Gracie Hengst Fuossell, Thorndale, that sold to Brink's Brangus, Kerrville, and Choya Ranch, Camp Wood, for \$4,000 to top the sale.

Six Junior Asem. members made purchases at a 10% discount in the sale. Top selling pair in the sale went for \$2,100 to Wendy Sjolander of Riesel, a consignment from Rojak Ranch. Second high pair was also a Rojak consignment purchased by Bracon Valley Brangus of Simonton for \$2,000; third high pair was a Star Creek Ranch consignment purchased by Diamond G Ranch of Ivanhoe, Texas, for \$1,550.

The top selling bred cow was consigned by Beaver Creek Brangus and purchased for \$1,250 by Britton Brangus and Louie Pearce of Houston. Second high bred cow was consigned by Rojak Ranch and purchased by Pearce for \$1,200.

The top selling bred heifer was consigned by Britton Brangus and purchased by Willow Springs Ranch, Burton, for \$8,700. Texas Polled Hereford NEWS

BY NORMAN CUBANIS
Sory-Mgr. TPHA

Plans have been completed for the Texas Polled Hereford Association Sire Evaluation Performance Test and Sale and the Top Calf Female Offering. The sale will be held Feb. 28, 1979, with delivery to Brownwood out for Sept. 7-9. The test committee is R. S. Metson, chairman; Charles Branton, Clayton Egger, Bill Tufts and Charles Abbey. An entry blank was mailed with this month's TPHA newsletter. Deadline for entering bulls is Aug. 25. If you didn't get a newsletter, contact TPHA office and we will send an entry blank.

Charlie Branton, president of the Texas East Polled Hereford Assn. has announced that the annual meeting will be held Aug. 10, at the Red Carpet Inn in Tyler. This will be a Dutch treat dinner meeting, and cost will be \$5 per person. The dinner will be at 7:30 p.m., after a social hour. Andy Glasz, vice president of the association, is in charge of the program and has one planned that will be interesting to anyone attending.

Larry Talley, Mt. Pleasant, Adron Justiss, Omaha, and Henry Pitts, Longview, teamed up and purchased EF Advancement 515H in the Welded Farm Disposal Sale at Crestwood, Ky., for \$9900, thus bringing an outstanding one of Advancer 225D out of the dam by TP Bear Made 18A to Northeast Texas. Jim Upfield, Dallas, has announced the hiring of Billy Glano of Olan Rose as the new manager of Upfield's Meridian Creek Ranch at Meridian, Glass succeeds John Schneider who is returning to Texas A&M this fall to complete his

degree. Glass previously worked for the Paul Powitt Ranch at Glen Rose.

Texas made an impressive appearance at the 5th National Junior Polled Hereford Show in Springfield, Ill., recently. There were 529 head in the show. Cheryl Newton of Keller, Miss Texas Polled, was a double winner, showing both the senior and reserve calf champions. Sharri Wisdom and Kay Holmz presided over a very attractive and popular "Texas" booth at the show. Steve Blount of Denison was chosen as the state exhibitor for Texas this year.

The 1978-79 dues notices will be mailed about mid-September after the American Polled Hereford Assn. has received verification of Texas registrations and the number of calves you registered will be included in the dues notice.

We welcome new members. J. J. Smiddy, Sulphur Springs, Floyd Chapman, Campbell, J. D. Adams, Henderson, and Adams Ranch, Junior, and Jimmy Farrington of Ferrington Farm at Abilene to the Texas Polled Hereford Assn.

Central Texas Polled Hereford Assn. Meets August 19, Meridian

BY KENNETH RADDE

The Central Texas Polled Hereford Association will have a covered dish supper and meeting at 7:30 p.m., Saturday, August 19, in Meridian. The location will be the recently renovated and air-conditioned library building, located 1 block north of the traffic light in downtown Meridian. Each of you should bring a favorite dish (maybe something out of the Pollette cookbook?). We'll have paper plates, plastic dinnerware, breed, coffee and tea on hand. For our program we'll have George Wages, county extension agent from Bosque County, talking about "Grazing Management for Small Grain Pastures."

Over the years, the Central Texas Polled Hereford Association has become recognized as the most active area Polled Hereford Association in Texas. One of the reasons has been a conscious attempt on the part of our directors to keep you better acquainted and better informed (as in the August mailed soon to all past exhibitors).

NEWS about LIMOUSIN

Around The Limo Loop

By KEN HOLLOWAY and BRUCE BROOKS

Another exciting Limousin show and sale season is upon us. But before we expose you to our upcoming events — our breed has recently been afforded the opportunity for what can be an excellent merchandising tool for purebred or percentage Limousin bulls.

Recently a panel of progressive breeders met with officials at Oklahoma State University to set plans for the Oklahoma National Limousin Bull Test at the OSU facilities at Conner State College, Warner, Okla., 1 1/2 miles off I-40 south of Muskogee, Okla. The test will be managed by Gary Harding and supervised by Dr. Travis Rich, OSU. Limousin bulls for the test must be 78% or higher and will be divided into two divisions: Senior Division—October and November, 1977 bull calves; Junior Division—January, February, and March, 1978 bull calves. There will be facilities available for 100 head of bulls that will be delivered for the test between October 7 and 14. At that time the bulls will complete a 81 day warm-up and 140 day test period ending March 28, 1978. Culmination of the project will be a Limousin Bull Test Sale to be held in mid-April. It will not be mandatory for the test bulls to sell. For additional information or nomination forms contact Gary Harding, Conner State College, Warner, Okla.; Gary Martin, NALF; Hal Courtney, Madill, Okla.; or Ken Holloway, American Cattle Services.

We would like to remind everyone of probably the most awaited event in the Limousin breed — the 19th. Annual NALF Convention and 5th World

Texas Limousin Association News BY WILLARD PFLUGER

Dear Members: As everyone knows, this is a hot, dry summer throughout the state. In one way or the other, everyone has their problems; dry weather, no water, no grass, and now no baling wire in most areas, but I am sure we will survive.

We are just around the corner from our fall show. First comes Dallas with our Junior Heifer show where I hope we will have more entries than in the past. Every deadline has passed for the Dallas show, but a junior member may still purchase a heifer and have transfer of ownership completed by December 1, 1978 for entry in the Fort Worth and San Antonio shows. These heifers must be at least 7/8 percent Limousin and solid red with a very minimum of white on the underline. Show officials will be very strict on transfer papers this year. For more information, you may contact Bob Brown, Route No. 8, Quanah, Texas 79258 - Telephone 817-859-4488. Bob is chairman of all the Junior Heifer Shows in Texas.

We will again have our annual TLA (CONT. ON PAGE 20)

A total of \$1500 in premiums will be awarded along with class winner trophies and banners and silver trays for the Grand and Reserve Champion heifers.

NALF Proposes Registration of Brahmosin

Denver — The board of directors of the North American Limousin Foundation have announced a proposed plan to register purebred and percentage Limousin-Brahman cross animals called "Brahmosin". Executive Vice President Greg Martin said, "With the rapid growth of the Limousin breed in the Southern States, there has been a great deal of interest in the National Junior meeting and disc-

Miss Jackson has exhibited Limousin cattle and won awards in shows in Oklahoma, Missouri, Kansas, Iowa, Kentucky, and Colorado.

The end result must be quality.

In order for any breed to achieve any form of supremacy in the cattle industry, quality of the breeding stock must never be weakened.
Quality is at its greatest at Budrick Farms this spring. The calves put out of our fullblood cows as well as our embryo transplants have reaffirmed our belief in our great breed.
We invite you to come by the ranch anytime and see these outstanding calves. We think you will agree that quality has, is, and always will be our prime concern.

Lone Star Limousin Sale Averages \$679

Lulling — In the Lone Star Limousin cow sale held at Lulling Livestock Commission Co. here July 29, the 117 lots grossed \$79,395 for an average of \$679.

The bulls have been extremely fertile, aggressive and very tolerant of the Southern heat and insects.
The program's purebred Brahman classification consists of animals developed from registered purebred Brahman and registered purebred Limousins, 67 percent halfers and 98 percent bulls, or higher. Exact percentage of Brahmosins may vary from 25 percent Limousin and 75 percent Brahman to 75 percent Limousin and 25 percent Brahman. Registered Brahman bulls and cows must be recorded with NALF to be used in the program.

Under the percentage Brahman classification, greater than 50 percent of the animal's blood would come from Limousin and Brahman, with a minimum of 25 percent Limousin and minimum of 16.75 percent Brahman.

This allows use of three-quarter Limousin bulls on three-eighths Brahman blood cows. The only bulls allowed under this program are three-quarter to fullblood. Limousin registered with NALF. These bulls can be mated to purebred grade Brahman cows, registered purebred Brahman cows or registered cows of the Brahman-cross breeds. The program does not allow percentage Brahmosins to be up-graded to purebred Brahmosins.

The proposal will be up for final approval in the board's late-September meeting, and Martin urges persons interested to send their comments to his office. Complete detailed copies of the Brahmosin guidelines are available from North American Limousin Foundation, 100 Livestock Exchange Building, Denver, Colo. 80216.

Consignment to the sale was Plum Creek Cattle Co., Lulling; Payton Scott; Ruling Star; Ed Vrazal, San Antonio; Tom McGrady, Montgomery; and Armstrong Ranch, Lockhart. C. K. "Sonny" Booth and Bruce Brooks were the auctioneers.

Limousin Bulls Are in Demand

"The Spring sales season has been a dream come true for many of the Limousin breeders across the country," reports Gray Martin, executive Vice-President for NALF. "Since the beginning of 1976, they have experienced a demand for their Limousin bulls that seems hard to believe. It all started in Denver with the percentage bulls averaging \$1728 thru the National Sale. The commercial bulls sold in the Denver yards hit a \$1600 average to complete the week.

Next on the consignment sale list was Sioux Falls, S. D. and the Red Carpet Sale. The two-year old percentage bulls averaged a strong \$1741 with the yearling bulls at \$1011. Then it was the Black Hille Sale in Rapid City, S. D. with the two-year old bulls making a \$2000 average during the blizzard. On to Des Moines, where a large group of percentage bulls made an average of \$1294. The last consignment sale and show was held in Houston, Texas, where the percentage bulls averaged \$1212."

Then we started hitting the tested bull sales. The Nebraska sale saw four-year yearlings average \$1120. The Montana sale rang up 94 yearling lots at \$1100. In Indiana the yearling bulls averaged \$1255 and topped the breed averages for the all-breed sale. The Limousin sale in Abilene, Texas, saw fifty head average just under the \$1000 mark. The Tested Sale at Edmont, Canada, reported \$1507 and the Canadian National Test Sale at Calgary recorded a \$1294 on the percentage yearling Limousins.

The production sales have been just as good. The Wiggins Sale had forty-nine lots at \$875, then the O'Brien saw sixty-two lots hit \$1080 in the average column. Carmichael's yearlings settled in at \$1480 on fifty-two head. Yackley's commercial bull buyers paid an average of \$1875 for the yearlings and \$1887 for the two-year olds.

R. Dee Cole, Auctioneer and Appraiser, breeder from Shiloh, Okla., says, "This year the Appaloosa Horse Show, this year, while Mrs. Ann Stover, Arabian horse breeder from Atlanta, Georgia, will handle judging duties in the Arabian Horse Show. The Open and Non-Pro Cutting event will be judged by Quarter Horse breeder Bill Morris, from Volney View, Texas. The Santa Circuit

By BUDDY SMITH
I was headed to Uvalde the other day to look at Chaparro's cattle nominated for the Premier Prestige Sale. Traveling west on Hwy. 90, about 10:45 a.m., someone came over the CB and said that the Sabine River bridge west of Sabinal was about to be closed. Needless to say, I had a lot of miles to cover (as always), so I sped up old Brown and headed for that bridge. As I crossed the bridge I could hear the roar of the flooded Sabinal approach and I was ticked to beat the flood. I haven't seen water in so long it might have scared me to death. I couldn't help but think about the powder dry area of East Texas I had just left that morning.

After I left the Mirasol division of Chaparro's, I went on down to Joe Martinez's ranch at Rio Grande City. It was so dry that Joe was out soaking his hogs so they'd hold slop. Joe and most of the other ranchers in the area have shipped their cattle to market or grass in Central Texas.

While in the Valley I visited with Mel Grey at Weisaco. He had just made a deal on the R. C. Horne herd. I hate to see Mr. Horne retire from the business, but Mel has every intention of taking this top herd and continuing on with it. Mel told me that "Tiny" Winsel had gone to work for Bobby Shalton at Kerrville. He will be hauling the show herd this fall.
Becky Schuster of the Frank Schuster Estate is taking the transition from budding artist to cow-woman in stride. While I was at the ranch, I was impressed with her knowledge and grasp of the cattle industry.
As you read this article the first Santa Gertrudis show of the 1978 show season will be history, that being the Ozark Empire Fair at Springfield, Mo. This is the first year in many years that this had not been on approved S. C. B. I. show. It was taken off the approved list of shows by the board of directors because it did not comply with some of the rules for shows as set down. I for one hope that things can be worked out as I feel that the Santa Gertrudis breeders in this area need the show for pro-

NATIONAL SANTA GERTRUDIS JUNIOR HEIFER SHOW

Kingsville — "Our Youth Are Our Future" — The Foundation of American Agriculture — was the theme of this year's National Santa Gertrudis Junior Heifer Show at the Heart of Texas Fairgrounds in Waco, Texas. With three full days of activities, the event was exciting for both young and old alike — especially since premiums and awards were at an all time high.

Santa Gertrudis junior breeders including A-H and FFA youth from five states participated in the show — 131 animals were entered from Georgia, Mississippi, Arkansas, Oklahoma, and Texas.

The first day started off with a fitting grooming and showing demonstration by LaRue Douglas, LaRue's Cattle Service, Georgetown. Approximately 225 junior and senior entrants were in attendance for the demonstration which concluded with a very active question-and-answer period.

Activities included a junior and senior livestock judging contest which realized a total of 133 contestants. The junior division winners were: Keith (CONT. ON PAGE 22)

Dr. Angelotti Quits USDA Post, Stormy Administrator of FSQS

(CONT. FROM PAGE 1)

House subcommittee on livestock and grains that Dr. Angelotti had visited in plants in Colorado and California in company of Herb Silverstein, who is with Quad Corp., a consulting firm. Silverstein arranged the tour, Angelotti testified, "without fanfare" and so he

in the open it appears folks in the livestock and meat business have lost none of their talent for spotting a phony. They been tryin' to get shed of him for a long time before Carol Tucker Foreman finally decided he was too hot to handle and was gittin' the temporary in USDA's kitchen to the unbecomable point. Most industry critics of Dr. Angelotti must have got a big grin out of the discovery by USDA's Office of the Inspector General that Angelotti had padded his expense account with \$17 worth of food and transportation expense he did not really incur — Thessell, Bradford.

Another bright spot in the Bureau's Regulatory scene has developed in the matter of nitrites and nitrites as preservatives for meat products. Here again the FDA and the Agriculture Dept. have announced a slow down in moves to ban these chemicals as possible cancer threats. A new study by the National Institute of Technology says these preservatives "may" possibly be dangerous, but the question of whether their removal might be even more dangerous brings up the problem of whether they may be more important in protecting people from botulism.

TV most interesting thing to come out in this controversy is the fact that USDA estimates that 20% of the nitrites & nitrites eaten humans comes from their use as meat food additives. However, 80% of these substances get into our human diets through meat and leafy vegetables such as potatoes, celery, etc. When these vegetables are ingested our digestive system makes them change from nitrites & nitrites to the proven cancer causing substances called nitrosamines. These nitrosamines developed by our own bodies are apparently harmful with no problems and there is reason to believe that unless humans ingested the chemical in amounts equal to the way these drugs are stuffed into lab animals, there is no cause for alarm.

At least FDA & USDA are showing a willingness to go slow and not jump to any conclusions or try to stampede the country before there is an assessment of the value or lack of it in the proposals to ban 'em. This has to be a sign that there is gittin' to be some horse sense among the All Highs in the bureaucracy. There is little doubt that this reasonableness on the part of the Regulatory stems from the horns' nest they stirred up when they arbitrarily handed esochrin without adequate proof it really was hazardous. We can thank Congress for this little deed of halter breakin' the bureaucracy and these little rays of sunshine indicate we may be comin' out of a fog on this matter of 'pumpin' to conclusions. We hope so.

Ever thine,
The Editor.

P. S. Unlike Dunk, Regan's recent developments like the forced resignations of Dr. Bourne and Dr. Angelotti and other bigwigs in the Administration are likely to breed a little caution among some of the others. High handed "above the law" attitudes in Govt are no more popular with the people than they were durin' the Nixon crowd. Dunk says now that the Angelotti affair is out
